Subject No. 206.
A branch road from Madavanakodi to join the Hassan Road.

Mr. Badami Rangasetty.

Summary of discussion.—A branch road should be opened from Madavanakodi of the Akkihebbal hobli in the Krishnarajpete Taluk to join the Hassan road in the Yedatore Taluk (a length of 8 miles) for the convenience of the raiyats going from the Krishnarajpete Taluk for the cultivation of a large extent of wet land under the Chamaraj channel.

Reply of Government.—Referred to the President, Local Fund Board.

Subject No. 207.
Brokers at Mysore to keep standard Kolagas.

Mr. Badami Rangasetty.

Summary of discussion.—The brokers (dallalies) at Mysore should be required to keep kolaga measures with a capacity equal to eight times the ordinary standard seer (measure) manufactured in the jails.

Reply of Government.—This must await the passing of the Weights and Measures Regulation.

Subject No. 208.
Formation of Municipalities.

Mr. Badami Rangasetty.

Summary of discussion.—Large villages such as Tippur and Hanasoge should be formed into Municipalities.

Reply of Government.—The Local Boards Regulation will provide for unions and panchayets being constituted in respect of such villages.

Subject No. 209.
An English and a Sanskrit teacher for the School at Hanasoge.

Mr. Badami Rangasetty.

Summary of discussion.—The Kannada School at Hanasoge should be provided with an English and a Sanskrit teacher.

Reply of Government.—This is not practicable.

Subject No. 210.
Alalkatte South channel.

Mr. Narasinga Row.

Summary of discussion.—A project for extending the Alalkatte channel as far as Lakshmanatirtha river, a distance of about 35 miles, was investigated some years ago. The execution of this work, which would bring a large extent of land under wet cultivation and prove very remunerative to Government, was urged for the consideration of Government during the meetings of previous years, when the Representative Members were informed that the work cannot afford irrigation for a large area. It is requested that the work may be carried out early, as the raiyats will be much benefited by it. An extension of 3 or 4 miles every year will do.

Reply of Government.—Referred to the Chief Engineer. Will be considered as funds permit.

Subject No. 211.
Giving out of breached and abandoned tank beds for cultivation.

Mr. Narsinga Rao.

Summary of discussion.—Several breached tanks in the taluks have been classed as kharab during the survey. It is requested that a list of such of the tanks as are not useful for either cattle or people may be called for, and the area comprised in such tank-beds be assessed and sold, as by this step the Government will not only be benefited, but a large area will also be brought under cultivation to the advantage of the raiyats.

Reply of Government.—Let the Deputy Commissioner be applied to in individual cases on darkhast.
